THE CHRONICLE - ARGONAUT.

VOLUME II.

ANN ARBOR, SATURDAY, OCTOBER 3, 1891.

NUMBER 1.

The Chronicle-Argonaut.

Entered at the Postoffice at Ann Arbor as Second-class Matter.

Published Weekly throughout the College Year by the Chronicle-Argonaut Association.

Edited by a Board Composed Equally of Fraternity Men and Independents.

Annual subscription \$2.00. Copies on sale at the post-office news-stand, Stofflet's, and at Sheehan's State street bookstore, where subscriptions are taken. Subscribers will notify us of any change of address or failure to receive the paper regularly.

Contributions are earnestly solicited from all interested in the University.

Address all communications to THE CHRONICLE-ARGONAUT, Drawer D, Ann Arbor, Michigan.

PRINTED AT THE COURIER OFFICE, ANN ARBOR.

THIS number of the CHRONICLE-ARGONAUT is sent to all new students. The subscription price has been placed at two dollars per year, a price within the reach of all. Subscriptions can be left as above indicated or handed to any of the editors.

SOME of the students who have been approached in regard to joining the Athletic Association have said, "I guess I'll wait till I see what the foot-ball prospects are." No policy is more fatal to the athletic interest than this. Already our Association is harrassed by the absence of its Pres., vice-Pres. and several of the Directors. You must subscribe *now* and encourage the management if you desire to see good games and see our Eleven go to the front. How can our manager arrange for games if there are no funds backing him? How can he hire a trainer? We have good material available and all the men want is backing; pay your money and you'll not be disappointed.

TO all members of '95 and other new students we say that no student can go through the University and know what is going on around him and be in touch with his fellows without taking a college paper. Further it is the duty of every student, and ought to be his pleasure, to subscribe

for some regular college paper and by his support aid one of the most important factors in the college life to-day. But there is still another reason; you want a chronicle of what happens while you are in college and in the college paper you have everything chronicled in a concise, newsy and desirable style. A subscription to the CHRONICLE-ARGONAUT is something which everyone can afford and we urge you to give the old established paper your hearty support.

WE most earnestly call the attention of all new students, and indeed of all our readers to our display of advertisers. We would impress upon you the fact that without the assistance usually so liberally given of the Ann Arbor merchants, the publication of the college journals would have to cease. Read our advertising columns thoroughly before laying your paper down and prove to the merchants that advertising in the college publication *does* pay, by giving them your trade.

WITH this issue the CHRONICLE-ARGONAUT enters its second year as a combination of the two weeklies, coming before the vast student body which it represents in the character of a general college paper. Standing in such a position amongst college papers the editors will endeavor to make it worthy of representing our grand institution. We shall not make any rash promises as to how the paper will be conducted, but shall strive to give our readers in as attractive a manner as possible all the news of the college in all departments with such other items as may appear to us to be of interest. To the alumni who take any interest in the affairs of their *alma mater* and who of them does not, we think we can promise much of interest in every issue aside from the alumni notes. We shall aim to publish everything of interest or note that happens. Many times we shall give synopses of the address and papers read before the many societies in the institution. We are always glad to receive contri-

butions from the undergraduates and alumni. Each year this side of college life is written on; we have good poets amongst us but they do not exert themselves to write for us. Sometimes their first communication is returned — perhaps on account of its length (for we cannot use long articles) and perhaps on account of its general make-up; but, do not become discouraged; try again and your worth will be recognized and appreciated. We hope to be able to publish many original undergraduates productions this year.

The New Instructors.

The new instructors this year are all young men who have excellent reputations for scholarship and who have attained considerable success as teachers. The University is to be congratulated upon acquiring so many promising new men.

GEORGE REBEC,

Instructor in English, is very well known to many of our readers, for he was a member of the last graduating class. He is a native of Michigan, having been born in Saginaw in 1868. After graduating from the Saginaw High School in 1885, he taught in the same school for one year. During the next year he was principal of one of the city schools in Saginaw. He then came to the University, and entered the class of '91. During his college career he has always been known as one of the brightest and hardest working students in the University, and he will no doubt prove very successful in his new position.

HEIMAN V. AMES,

who succeeds Dr. McPherson as instructor in History, received his academic degree at Amherst in 1888. During the following year he was a student in the Columbia School of Political Science. The two years since then he has spent at Harvard where he held the Fellowship in Constitutional History and Law, receiving the degree of Ph. D. in 1891.

R. WEEKS,

Instructor in French, is a Westerner by birth, but was educated in the East. He obtained the degree of M. A. from Harvard in '90.

H. G. ROWE,

Instructor in Physics, is one of the distinguished members of the class of '91. He is a native of Indiana, and prepared for college at the Fort Wayne high school. During his college career he obtained an excellent reputation as a bright, hard-working student, and his attainments in his specialty, Physics, were such that immediately after receiving his degree he was appointed to the position of instructor.

HIRAM A. SOBER,

Instructor in Greek and Latin, was born and has lived nearly all his life in the shadow of the University. He graduated from the Ann Arbor high school in '81, and then entered the University with the class of '83. Before graduating, however, he spent one year in teaching, and returning to college, received the degree of A. B. in '86. The next two years he was principal of the Michigan City, Ind., high school, and afterwards he held a similar position in Coldwater, Mich. A year ago he returned to the University, and took up graduate work in Greek, Latin, and Sanskrit, receiving the degree of M. A. last June.

A. H. LLOYD,

Instructor in Philosophy, was born in Montclair, N. J. He graduated from Harvard in '88, and afterwards taught for some time at Philips Andover Academy, Mass. During the past two years he has been studying at the University of Heidelberg, Germany.

ELMER E. BROWN,

who temporarily fills Prof. Hinsdale's chair, is a native of New York. He graduated from the Illinois Normal school in '81. After teaching for several years in Illinois, he came to the U. of M. and received the degree of A. B. in '89. The next year he spent in Germany, at the University of Halle. He obtained the degree of Ph. D. there in one year, which is a very unusual occurrence. During the past year he has been principal of the high school at Jackson, Mich. Although a young man, Dr. Brown holds a place in the front rank as an educator, and will no doubt fill the chair of Pedagogy in a very able manner during Prof. Hinsdale's absence.

J. A. C. HILDNER,

Instructor in German, prepared for college at the Detroit high school, and entered the University in the fall of '86. While here he was one of the best known and most popular men in college. In his senior year he was on the editorial board of THE CHRONICLE, and member of the first *Castalian* board. He was also historian of his class. During the past year he has been principal of the high school at Hancock, Mich. Last summer he was married to one of Ann Arbor's fair daughters. THE CHRONICLE-ARGONAUT extends its congratulations and best wishes.

A. L. HALL,

Instructor in Mathematics, is a native of Michigan, having been born at Memphis, in the "Thumb," in 1865. He prepared for college at the Hastings high school, and entered the University in the fall of '83. While in college he made Mathematics and Physics his specialties. In his senior year he was on the editorial board of the *Argonaut*, and was historian of his class. Since graduation he has been teaching Mathematics and Sciences in the La Porte, Ind., high school, and during the last two years he has been principal of it.

Choral Union.

The first meeting of the Choral Union next Tuesday evening, Oct. 5, at 7:30 P. M. in the Chapel will be a very important one. The attendance of the old members is especially urged as it is necessary to determine as accurately as possible the number of vacancies. Singers who may desire to enter the Choral Union must consult Prof. Stanley as soon as possible. He will be in the music room (rear of University Hall) from 9 to 12, and from 2 to 4 P. M. for the next few days in order to meet such persons.

While it is not possible to announce the complete Choral Union series at this time all will be pleased to know that the Boston Symphony Orchestra have been engaged. It is the intention of the Society to have one concert each month, and to present nothing but the best. Mrs. Genervia Johnson Bishop, Mr. Whitney Mockridge, Mr. Beresford and Ovide Musin are among the artists engaged. The first concert will be given Nov. 20,

by the favorite Detroit Philharmonic Club. It is hoped that the sale of Associate Membership tickets will enable the Choral Union series of this season to exceed that of last in artistic merit and financial success.

The Winchell Memorial.

Under the management of J. E. Church, '92, President of the Geological Society, a memorial to our late lamented Professor Alexander Winchell, has been printed; it contains the funeral oration by William S. Studley, D. D., with the remarks by Professors Carhart, Walter and Harrington, and Messrs. J. E. Beal and Dr. Breakey. There is for a frontispiece a magnificent half-tone photograph of Dr. Winchell. This memorial will surely be desired by all who were his pupils, and can be obtained at the Bookstores.

The new play by Bill Nye, called "The Cadi," had ample trial before it reached New York and had been awarded a favorable verdict. At the Union Square Theatre, in that city, that verdict has been ratified. The quaint spontaneous humor of Nye is reproduced in the dialogue in ample measure. The play is by no means a remarkable one in design or construction. It is simply a series of sketches on the experience of a western justice of the peace, to which central figure all the other parts are subordinate. Fun, of course, predominates, but there is an under current of pathos.

Cornell has played one match game up to date.

The Harvard and Yale elevens are both in training. Harvard has seven of last year's team and Yale eight.

Frantzen the winner of the State championship for middle weight boxing at Detroit last spring has returned to college.

The great struggle for the Eastern championship lies between Harvard and Yale this year, with the chances in Harvard's favor.

The annual fall handicap games of the Detroit Athletic Club were held Tuesday, Sept. 29, and about 2000 spectators watched the crack athletes of the country on the cinder track and in the field. Carey did not compete, having gone to St. Louis to get ready for the championships on Oct. 3rd. Jewett, D. A. C., ran 120 yards in 12 seconds which equals the American record. Big Mitchell of the New Yorks threw the hammar 139 feet 10½ inches, beating the world's record, and Nickerson, N. Y. A. C., jumped 6 ft. and ½ inch which is a very clever performance

Slayback, full-back of Wesleyan, will enter the Yale Law School this fall, and will probably play in that same position for Yale.

Herbert Mapes, captain of Columbia's Athletic Team, was drowned at Fire Island last summer. He had a record for the 120 yards hurdle of 16 1-5 seconds.

Luther Cary, M. A. C., in the English championship games, won the 100 and 200 yard dashes. At Paris all the events were captured by Americans.—*Ex.*

A game has been arranged with Cornell at Detroit for Nov. 21st. A series of games for the State Championship to be held the last of this month is pending. Olivet, (the champions of the inter-Collegiate league) Albion, the Detroit Athletic Club and the University will probably be represented. This series of games will be played for the State Championship and a valuable cup. A cup will be given to the team winning second place in the series.

The National Amateur Championship games will be held Saturday, Oct. 3rd, at St. Louis, Mo. All the prominent athletes in the country will compete, including Fred Ducharme, Harry Jewett, Luce and McGee of the Detroit Athletic Club. Special interest is shown in the short dashes in which Carey, M. A. C., and Jewett, D. A. C., will meet also the one mile run in which A. B. George, M. A. C., will meet his club mate Conneff. Both of these athletes have shown remarkably fast time lately, and there is considerable rivalry between the two men. Remington, M. A. C., and Downs, N. Y. A. G., will make a good race for the quarter mile.

Foot ball practice has been held during the week after four thirty, p. m. There are many places open on the line to be filled by new men. "Because you're the flower of heaven," cried he,

"You're a little ox-eyed daisy?"

THE DYING EDITOR.

The editor lay a dying,
 His breath came thick and fast,
 The friends around him crying,
 Awaiting for the last.
 The doctor bended o'er him
 And felt his pulse, so slow,
 Then shook his head, his eyes dim,
 And said in accents low:
 "His circulation once so strong
 Is now about to stop,
 His time to stay cannot be long,
 In a minute he is not."
 Then the editor so fierce like,
 His lips are parched a dry,
 Gazed full upon the doctor
 And made this hot reply:
 "Get out you lying quacker,
 And take your traps away;
 My circulation is as great
 As the world can show to-day."
 Then he sank back on his pillow,
 His testimony given,
 And on death's rolling pillow
 He rode up into heaven.

LITERARY NOTES.

In its November number the *Cosmopolitan* will publish a series of letters written by Gen W. T. Sherman to one of his young daughters, between the years 1865 and 1869 and covering most of the important events of the war of secession. These letters present graphic pictures of a great soldier amid some of the stirring scenes in which he was a giant figure, and in them the patriotic spirit of the Federal general is seen to have been most attractively tempered by a strong affection for the Southern people.

Miss Alice M. Fletcher, of the United States Interior Department and the Peabody Museum, Cambridge, will contribute to *The Century* in 1892 the results of her studies of the American Indian in a series of illustrated papers. They will give an intimate account of how the Indian actually lives and thinks, his music, home life, warfare, hunting, customs, etc., and it is the opinion of Professor Putnam of Harvard that they will undoubtedly be the most important papers that have ever been published on the subject, and that they will give an entirely different idea of the Indian from that now commonly prevailing. The series will be called "The Indian's Side."

A new feature of the *Cosmopolitan*, and one which is original with that magazine, is the publication each month, in the forms of foot notes, of a number of little portraits with brief biographies, of the writers of the various articles. However widely read one may be, there is apt to be some thing of information lacking regarding the vast number of writers who appear in the periodicals of the present day, so that these brief biographies and small portraits are proving very satisfactory to the average reader.

Amelié Rives striking story "According to St. John" is brought to a dramatic close in the Oct. number. No other piece of current fiction by an American author has attracted so wide attention as this tale of Paris life, and the concluding pages fully sustain the interest awakened by the earlier chapters.

The Magazine of American History for Octo-

ber forcibly illustrates how a leading monthly, which keeps in touch with the highest thoughts current of the day in regard to historical events, may become a public benefactor as well as an educator. Just as the inquiry is at high tide concerning the portraits of Columbus, one may open this beautiful number and learn all about the most important of them. The article by the editor, "A group of Columbus portraits," deals with facts and picture pedigrees that are well authenticated, giving fac-similes of the oldest and rarest engraved prints of Columbus portraiture extant, with much other data of timely consequence. The double-headed contemporary print of the portraits of Ferdinand and Isabella, a gem of great value, is included; and Mrs. Lamb with easy grace, adds for her essay suggestive sketches of these sovereigns and their great military triumphs in connection with Columbus and the dawn of America upon the map of the world which is delightful reading.

Cook's Corporation Law and Mecham's Agency Law are legal classics—CALLAGHAN & Co.

The Commercial 1000 mile book which the Toledo & Ohio Central Ry. has been promising, is now in the hands of the agents. It covers 18 railroads, about 4500 miles; reaches about 1000 points, and is sold at \$20, with limit of one year from date of sale. They are meeting with a very flattering reception as they well deserve.
